to make a world, the saying goes — and all kinds of people demand all kinds of businesses.

A classic treatment of this pro-saic fact is given by Editor Will-iam Feather in his Imperial Type Metal magazine;

"Among younger matrons there's a difference of opinion about mar-keting. One group insists it pays for table supplies. The other group that would never occur to her in company plant today, the privacy of her home. She buys The Ramsey county

Watch Label Date on Mail Subscriptions

Subscribers who receive The Star by mail are urged to check the expiration date on their label, especially after renewing the subscription. The label should show the new expiration date within two or three days -never more than a weekafter the office is paid. For exanınle:

Your old expiration date is February 15, 1951. The old la-bel would read 2-15-51. You pay for another year — and in a few days the label should read 2-15-52. Unless the label is correct you run the risk of accidental stoppage of the paper, because billings and cut-offs are made from the label dates. The books, of course, would eventually correct any mistakes — but a correct label date is your insurance against missing some copies because of a typographical event.

Remington **Awaits** Sentence

W. Remington, convicted of perjury, will be sentenced today p. m. EST).

He faces a possible maximum sentence of five years in prison and \$2,000 fine.

The 33-year-old former government economist last night heard a jury of seven women and five men pronounce him guilty of lying to a federal grand jury last summer when he denied ever being a member of the Communist party,

Remington frowned heavily when he heard the verdict - but said nothing.

The jury returned its verdict after deliberating about five hours. Its decision climaxed a 32-day trial during which the blond, handsome defendant was accused of transmitting government secrets to Elizabeth Bentley, self-de-scribed former Commuist courier.

Reminds to **Watch Your Deductions**

(Editor's note: This is the fourth of 12 stories explaining who has to do what about his 1950 income tax return).

By JAMES MARLOW

Wasington, Feb. 8 - An - This is a reminder to watch your deduc-tions in filing your 1950 income tax return.

Be sure you claim all you can, rightfully, since the deductions are subtracted from your income before what's left can be taxed.

You have no problem if, your income was under \$5,000 and your deductions were not more than 10 per cent of your income.
You'll use form 1040-A or the

1040 short form. You don't have to figure your tax on those forms. A tax table, used with both, 10 per cent already is allowed for

So, in using those two forms, you don't have to claim or list your cent on income up to \$5,000.

But suppose, although your come was under \$5,000, your demore than 10 per cent. Don't use form 1040-A or the 1040 short from. You'll lose money.

Instead, use the 1040 long form There you'll have to figure your own tax and itemize all your de ductions but you can claim your deductions in full. Any under \$5. 000 person using the long form must itemize his deductions.

The picture is a little different for people with income of \$5,000 or more. They have to use the long form anyway. They can't use form 1040-A or the 1040 short form. And the rules for 5\$,000-or-more people using the long form are a little different from those for people for people with under \$5,000 income using the 1940 long form. This is the score for people with

A single person automatically gets — without itemizing — a deduction of 10 per cent of his income up to a limit of \$1,000 in the content of \$1,000 come up to a limit of \$1,000 in de-ductions. Just take that 10 per cent, knocking that much off his income before applying the tax to what's left. Example:

Jones, single, had \$5,500 income. His automatic deduction: \$550.

Smith, single, had \$10,000. Automatic deduction: \$1,000. As noted no one gets more than \$1,000 as a standard deduction. That's maxi-

Example: Brown, single, had \$30,000. Automatic deduction: \$1,-000. If Brown's deductions actually ran to more than \$1,000, he could claim them but he'd have to item- new life.

The same goes for Jones and Smith, If Jones wanted to claim more than the standard \$550 allowed him on his \$5,500 income or Smith wanted to claim more than the standard \$1,000 allowed him on his \$10,000 income, he'd have

However, it's interesting to find it -an emphasis imparted to it by not only persising but emphasized the late Mustapha Kemal, the dictator and military genius who modernized his nation and gave it

A further token of the temper of the Turks is seen in the announcement that Mustapha Kemal's adoed daughter, Major Sabiba Gokcen, a fighting plane pilot, is going to Korea to get into the shooting. She is no noivce, having been in compat against rebellious Kurds in
